

Mahatma Education Society's
Pillai Group of Institutions

SPORTS REPORT 2015-16

PAVING WAY TO THE DESTINY

"Searching in the moon light, I am thinking of you"- A slogan which is apt for Indian sports community as it is very rare to get qualified through the standards and norms to compete at the supreme venue of sports "The Olympics meet". The academics year 2015-16 is a memorable year for the department of sports of Mahatma Education Society. It is also a year where a long dream of the Pillai Group of Institutions came true. One of our Engineering students Miss. Ayonika Paul qualified to represent the country in Olympics rifle shooting championship 2016 at Rio(Brazil) and it must be a proud moment for all of us. Our prayers and support are always with her whether it is in the training for Olympics or for her academics in the college. We believe that she is a medal hope for the country and sure that she will come out with flying colours from the rifle shooting range of Rio Olympics 2016.

In addition to this there are many significant performances by MES students at national level. Master Anoop kumar Std IX student of HOCL School creates anew National CBSE Athletics meet record at Raipur in Long jump with Gold medal. Pillai college of Arts commerce and Science-New Panvel create history by winning Mumbai University Football championship title. This is the first time a college out of Mumbai city winning this title. There are many more remarkable performances by our schools and colleges during various levels of competitions which is mentioned in the status report.

In India we always do our sports promotion and supports in and around an IPL match stadium or inside an ISL Pavilion and at photo ops of a victory ceremony. Comprehensive changes in the mind set of the nation are the need of the hour. How can we achieve it? Let me give an example; in Japan, a child entering in the primary education system does not have any exam for the first four years. At this stage, rather than giving a judgement on their academic merit, what is focussed on is to establish a thorough value system in them; values of honesty, integrity, sincerity, discipline, importance of fitness, sports par with academics, commitment etc; and also the myriad dimensions social living. A student emerge from the first four years permanently bear the good impressions left on him by this system and he learns to look at his fellow beings and the world he lives through this system. Thus the foundation for a better society is laid there. And coupled with it when they are initiated into the world of knowledge and sports in the successive years, the product that comes out eventually is a human being with the comprehensive development of both intellect, soul and in the field. "

PAVING WAY TO THE DESTINY

In order to the implementation of the value added education system in Pillai Group of Institutions, we have also added HEARTFULNESS- Guided Relaxation is aimed at this goal. Living in a world of full of noises; noises of all sorts, students are bombarded with so much that is unnecessary or unwanted. It is imperative that they should manage to remain with themselves, their unique inner core, to grow into a productive individual for themselves, their family, society and the nation. With our guided relaxation technique a student starts his day curbing his chaos and bringing more order to his mind or soul, thus remaining more with his self. And at the end of the day when he does a recap of all the incidents of that day, he becomes aware of what all went in the right direction and what all in the exact opposite. This Cleansing gradually enable them to develop a filter to avoid the wrong and the harmful. And that skill is going to be one of the most powerful assets in their life. I am quite confident that down the lane this body of students who we are now moulding to be a generation with a better outlook on life will be a boon to our nation.

Keeping all these aspects a value added system, Pillai group of Institutions has organized two Marathon namely **PEN MARATHON** and **KHOPOLI MARATHON** with a slogan "RUN FOR HUMANITY"-to spread humanity among all the classes of the society. Thousands of people from all the walks of life participated in the run and it became an huge success by mass participation. The Mahatma Sports Club is successfully continuing its sports training regular classes at all its campuses. Sports discipline like gymnastics, skating and swimming are getting tremendous response from the parents and children. There are as many as 12 special sports coaching classes are conducted by Mahatma Sports Club throughout the year.

Mahatma Education Society's Inter institutions sports & games championships, has become an event that students were waiting for. The staff football & cricket become the examples of mass staff event in Navi Mumbai." MES's sports control board is here to come up with more innovative ideas and looking forward to organize and train more events for its students. We welcomes the academic year 2016-17 with great enthusiasm as now we are sure that we can create more Olympians from Pillai Group of institutions in the years to come. We convey all the best wishes to our students for a successful academic year 2016-17.

Padmakshan Padmanabhan

Director of Sports,
Pillai Group of Institutions

HIGH LIGHTS OF PERFORMANCE BY PILLAITE`S...
